

KAROLINE N -2013

Diwali is considered to be the festival of lights, followed with all the traditional values and rituals in India and many places around the world.

Karoline N was enroute from Panama to Houston during these celebrations. I was amazed at the enthusiasm the people on board had. On Diwali day everybody managed sometime from their busy schedule to add there inputs for the party in the evening.

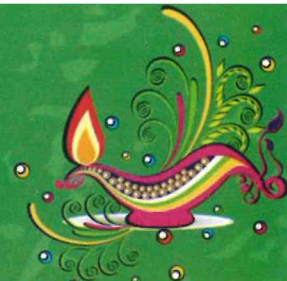

The Diyas, Rangolis, and traditional Pujas, were organised as few of these were hand carried by me, as I recently joined on board. Together with these the joy and enthusiasm of everybody was enough to lighten up the atmosphere with sweetness and brightness.

All crew were very excited and with wide open smiles, I was feeling overwhelmed with the spirit of the people.

With me being the only lady on board, I got the honour of leading the show. With good food, lot of games, good music and lots of fun filled moments, the party was a great experience for me to cherish and share with you all.

It clearly sends a message of Universal brotherhood.
